- Corporate/training facilities

STONHARD

STONHARD

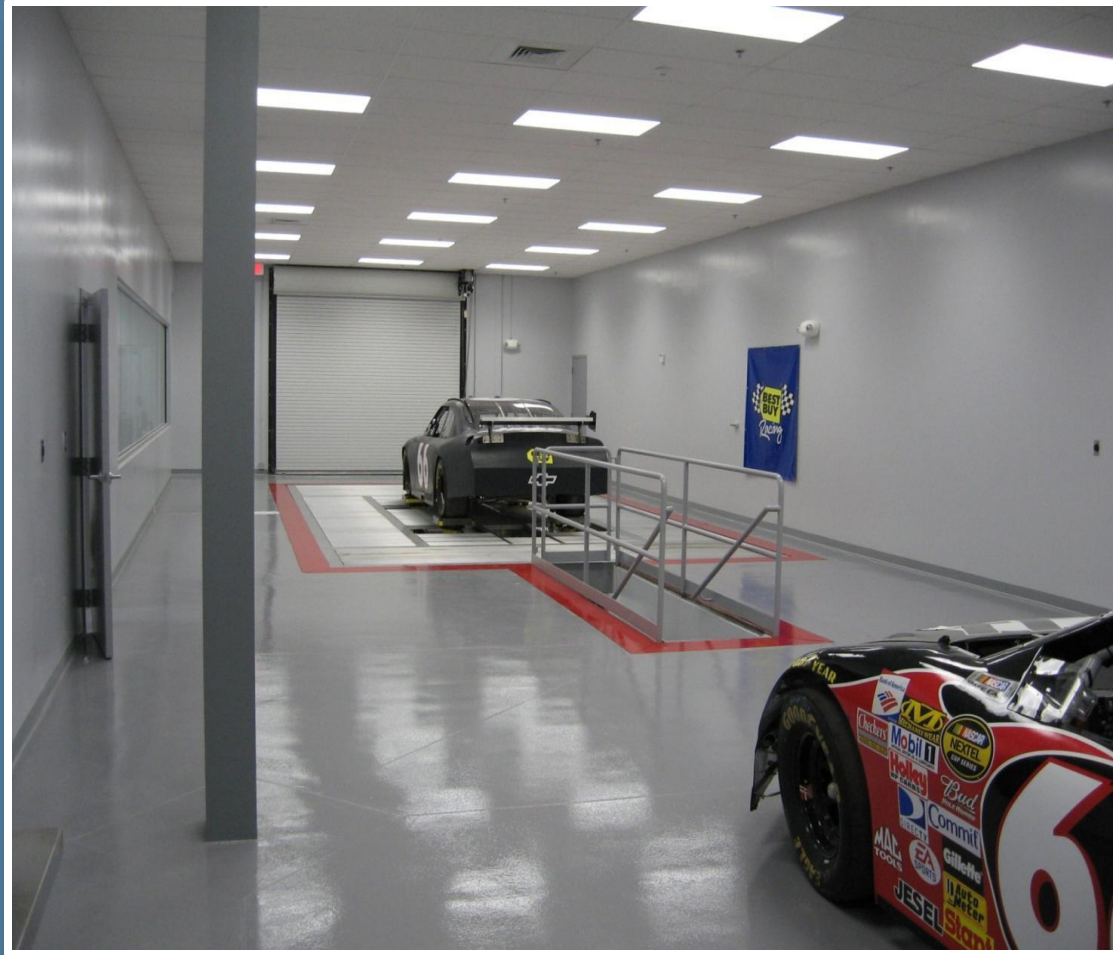

Before

Traditional Flooring vs. Resinous Flooring

After

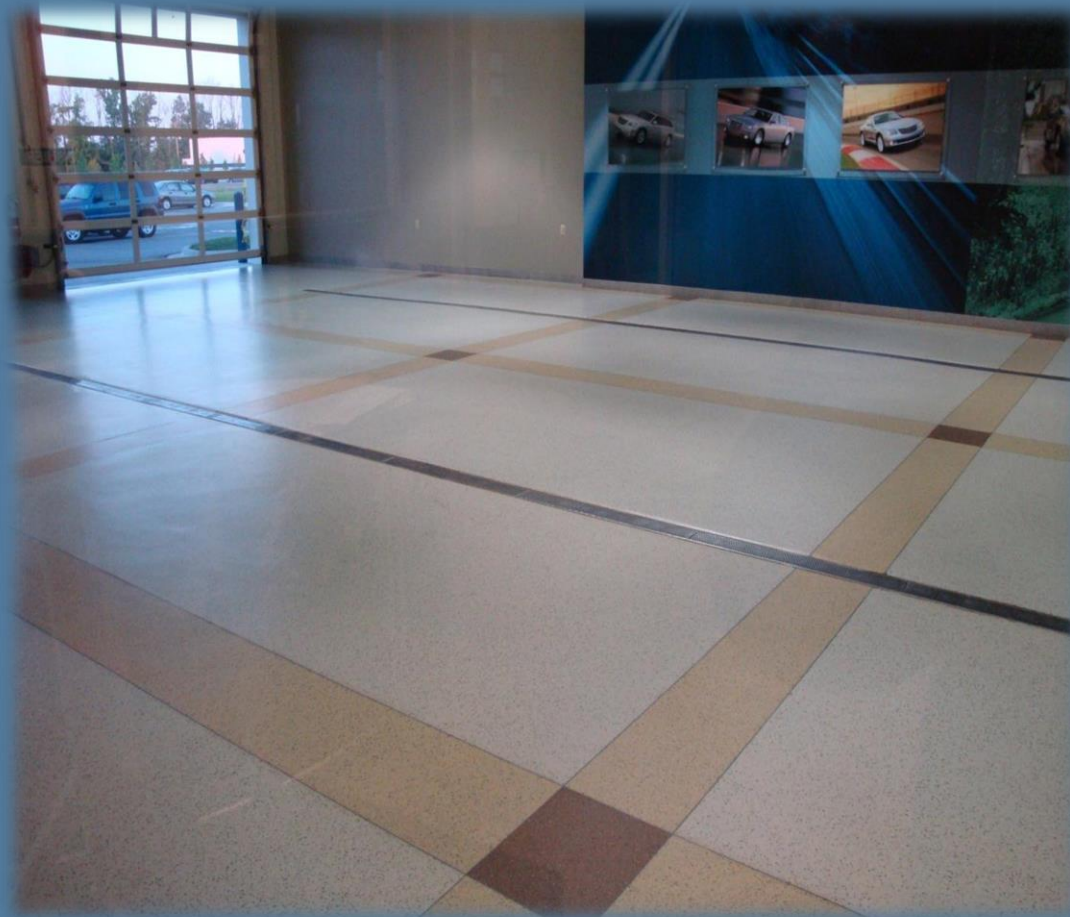

STONHARD

STONHARD

STONHARD

Chemical Resistant. Abrasion and impact resistant.
Long lasting. Easy to maintain.

STONHARD

STONHARD

STONHARD

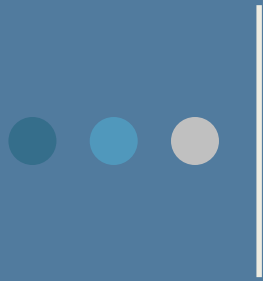

Stonblend GSI-G uses recycled glass in the surface of the system – a commitment to the environment and to great design

STONHARD

Stonclad GR, an epoxy mortar that uses 30% recycled glass filler and a rapidly renewable soy-based component
